

Srishti Gupta, Ph.D.

BB318, Massry School of Business, University at Albany, SUNY
1400 Washington Avenue, Albany, NY 12222

📞 +1 814 826 5117 • ✉️ sgupta4@albany.edu

Education

- **Pennsylvania State University** **University Park, PA**
Doctor of Philosophy (Ph.D.) in Information Sciences and Technology *2023*
Advisor: John M. Carroll
- **Vellore Institute of Technology** **Chennai, India**
Master of Science (5 year Integrated Program) in Software Engineering *2016*

Academic Appointments

- **University at Albany, SUNY** **Albany, NY**
Visiting Assistant Professor *September 2024-Present*
 - Non-tenure teaching focused position where I design and teach graduate and undergraduate courses in Human-Centered AI, Data Analytics, AI and Ethics focusing on applied project-based learning.

Courses Taught

- **BAIB 650: AI and Ethics:** Graduate course on ethical implications of AI in organizations, with a focus on student-led discussion.
- **BFOR 206: Programming for Analytics:** Undergraduate course on fundamental of python programming concepts and tools tailored for data analytics.
- **BFOR 516: Advanced Data Analytics:** Graduate course on machine learning and artificial intelligence for AI for Business program with a research-based case study approach.
- **BFOR 515: Tools for AI and Data Analytics:** Graduate course covering foundational concepts in Python programming and statistics, focusing on real-world business applications.
- **AI Executive Program: Ethics and Societal Impact of AI:** Executive program for professionals on socio-technical implications of AI.
- **IST 331: Foundations of Human-Centered Design:** Undergraduate course on design principles and human-computer interaction with a project-based approach.

Publications

Journal and Conference Publications

1. **Gupta, S.,** Bano, T., Chen, Y.C., Zendejas, E., Krafka, S., & Tsai, C.H. (2026). Preserving Indigenous Culture and Sovereignty in Large Language Models [Accepted at *Annual International Conference on*

Digital Government Research].

2. Pal, A., Ummul, K.F., **Gupta, S.**, Gayashan, P., & Tsai, C.H. (2026). Empowering Public Health: Designing Multimodal AI for Citizen-Led Autism Behavioral Review [Accepted at *Annual International Conference on Digital Government Research*].

Workshop Papers.....

1. Bano, T., Tsai, C.H., **Gupta, S.**, Chen Y.C., Zendejas, E., & Krafka, S. (2025). Exploring Responsible Use of Generative AI in Disaster Resilience for Indigenous Communities. [manuscript accepted in ACM UMAP 2025].
2. Nandy, G., **Gupta, S.**, Afzali, F.M., Peeples, E., Pilon, B., & Tsai, C.H. (2025). Balancing Health Information-Seeking through Retrieval-Augmented Generation-Based LLM Chatbot. [manuscript accepted in ACM UMAP 2025].
3. Vadapalli, J., **Gupta, S.**, Karki, B., & Tsai, C.H. (2024). Incorporating Citizen-Generated Data into Large Language Models. In *Proceedings of the 25th Annual International Conference on Digital Government Research* (pp. 1023-1025).
4. Chandrasekar, H., **Gupta, S.**, Liu, C.T., & Tsai, C.H. (2024). Leveraging Large Language Models for Effective Organizational Navigation. In *Proceedings of the 25th Annual International Conference on Digital Government Research* (pp. 1020-1022).
5. **Gupta, S.**, & Tsai, C.H. (2024). Utilizing Large Language Models in Tribal Emergency Management: A Qualitative Study. In *Companion Proceedings of the 29th International Conference on Intelligent User Interfaces* (pp. 1-6).
6. Wang, X., Kneare, T., Gui, F., **Gupta, S.**, Zhu, H., Williams, M., & Carroll, J. M. (2018, April). A Safety Net: How Older Adults Build and Maintain Interpersonal Relationships. In *Extended Abstracts of the 2018 CHI Conference on Human Factors in Computing Systems* (pp. 1-6).

Books and Book Chapters.....

1. **Gupta, S.**, Mustafa, S. Z., & Kumar, H. (2017). Smart People for Smart Cities: A Behavioral Framework for Personality and Roles. In *Advances in Smart Cities* (pp. 35-42). Chapman and Hall/CRC.
2. Carroll, J. M., Jo, J., **Gupta, S.**, Gui, F., Sandbulte, J., Lin, Y.-F., Lee, S., Kneare, T., & Tsai, C.-H. (2026). *Coproducing care: Synergies of recognition*. Springer.

Manuscripts Under Review.....

1. **Gupta, S.**, Nandy, G., Afzali, F.M., & Tsai, C.H. (2025). Bridging the Uncertainty: Enhancing Caregiver-Provider Communication in Hypoxic-Ischemic Encephalopathy (HIE) with an LLM Chatbot [under review at *Computer Supported Cooperative Work (CSCW): The Journal of Collaborative Computing and Work Practices* Springer].

Professional Experience

- **Health Management Informatics Lab, Inc.** **Remote**
UX Researcher September 2023-August 2024
 - Design, implement, and manage various digital health studies assessing a variety of innovative health-care tools such as AI-powered labor assisting devices, wearables, and telemedicine.
 - Manage and implement mixed-method research studies, including surveys, interviews, experiments, and think-aloud sessions.
- **IBM Research** **Remote**
Summer Research Intern June 2021-August 2021

- Spearheaded a research study within the Accelerated Materials Discovery (AMD) research group, focusing on uncovering barriers in knowledge-dense interdisciplinary research, specifically in AMD and AI integration.
- Contributed to improving algorithm explainability by introducing novel scenario-based design and employing GPT as boundary objects, addressing conceptual translation challenges within interdisciplinary research groups.
- Used methods such as participatory design, scenario-based design, and interviews.

Indian Institute of Technology Delhi

New Delhi, India

Graduate Research Intern

January 2016–May 2016

- Led a comprehensive research study analyzing Twitter analytics concerning web design accessibility, uncovering a lack of awareness about accessibility guidelines among web designers.
- Developed a conceptual framework aimed at bridging this gap and increasing awareness of web accessibility guidelines among web designers.

Talks

Conference and Poster Presentations.....

- o **"Distance Matters in Citizen-Based Water Quality Monitoring"**
 - ACM CSCW Conference, October 2025
- o **"Designing Sustainable Indigenous Technology"**
 - ACM COMPASS Conference, July 2025
- o **"The Role of Generative AI in Supporting Neurodiverse Individuals: Literature Insights and Future Directions."**
 - EAI AICON Conference, April 2025
- o **"Indigouse-Generated Data for Culturally Sensitive AI: Preserving Indigenous Knowledge and Data Sovereignty."**
 - Indigenous Computational Futures Collective Workshop at Arizona State University, February 2025
- o **"Utilizing Large Language Models in Tribal Emergency Management"**
 - ACM IUI Conference, March 2024
- o **"Conceptual Translation Problems in Cross-Functional Materials Discovery Teams"**
 - American Chemical Association (ASC), Fall 2023: Harnessing the Power of Data, August, 2023
- o **"Facilitating Inter-Group Collaboration in Field-Based Citizen Science"**
 - Penn State Graduate School Exhibition, March 2023
- o **"Instagram of Rivers: Facilitating Distributed Collaboration in Hyperlocal Citizen Science"**
 - ACM CSCW Conference, November 2022
- o **"Not in my Backyard!? Lessons from a Community Conflict"**
 - ACM C&T Conference, June 2021
- o **"International Cooperation to Enhance Website Security"**
 - Annual Symposium on Information Assurance (ASIA'15), July 2015

Invited Seminars.....

- o **"From Silos to Synergy: Enabling Distributed Collaboration in Citizen Science Water Quality Monitoring"**
 - University of Nebraska Omaha, September 2023

- **"Citizen Science for Public Health"**
 - HITLAB's 2023 Innovators Summit: The Promise & Potential of Digital Health, June 2023
- **"Women in Technology: Lessons from My Academic Journey"**
 - Women's Health Tech Wednesday, HITLAB, May 2023
- **"AI in Interdisciplinary Research: Case of Accelerated Materials Discovery"**
 - IBM Research, March 2023
- **"Introduction to the 'Water Data Collaborative' Platform"**
 - Spring Creek Watershed Commission, May 2022
- **"Facilitating Distributed Collaboration in Community-Based Water Monitoring Groups"**
 - Lake Stewards of Maine, September 2022

Student Advising

- **(2025) Anirban Pal, PhD student in Department of Information Systems and Quantitative Analysis, University of Nebraska Omaha**
 - Project: "Multimodal AI for Citizen-Led Autism Behavioral Review "
 - Mentored in data analysis and technical writing.
 - Co-authored a research paper that is under review at DGO Conference 2026.
- **(2024) Jagadeesh Vadapalli, Masters student in Department of Information Systems and Quantitative Analysis, University of Nebraska Omaha**
 - Project: "Incorporating Citizen-Generated Data into Large Language Models"
 - Mentored in data analysis and technical writing.
 - Co-authored a poster paper that was accepted at ACM DGO 2024.
- **(2024) Gargi Nandy, second-year Ph.D. student in Department of Information Systems and Quantitative Analysis, University of Nebraska Omaha**
 - Project: "Enhancing Family Support for Neonatal Hypoxic-Ischemic Encephalopathy Through a Language Model Application"
 - Mentored in study design, data collection, data analysis and technical writing.
- **(2024) Haresh Chandrasekar, Undergraduate student in Department of Information Systems and Quantitative Analysis, University of Nebraska Omaha**
 - Project: "Leveraging Large Language Models for Effective Organizational Navigation"
 - Mentored in data analysis and technical writing.
 - Co-authored a poster paper that was accepted at ACM DGO 2024.
- **(2023) Tejesvi Sreeramdas, Masters student in Department of Information Systems and Quantitative Analysis, University of Nebraska Omaha**
 - Project: "Design of LLM's for Tribal Emergency Management"
 - Mentored in data collection, interview protocol design, data analysis, and technical writing.
- **(2022) Jiyeon Kim, first-year Ph.D. student in College of Information Science and Technology, Penn State**
 - Project: "Design Space Analysis of Citizen-Based Water Quality Monitoring Applications"
 - Mentored in data collection, systematic review, data analysis, and technical writing.

- Co-authored a research paper which is under preparation
- Project: “Misinformation in Local Community”
 - Mentored in the design of the interview protocol, qualitative data analysis, and technical writing.
 - Co-authored a research paper that is accepted at ACM GROUP 2027 Conference.
- **(2022) Ya-Fang Lin, first-year Ph.D. student in College of Information Science and Technology, Penn State**
 - Project: “Design Space Analysis of Citizen-Based Water Quality Monitoring Applications”
 - Mentored in data collection, systematic review, data analysis, and technical writing.
 - Co-authored a research paper that is under preparation.
- **(2020) Julia Jablonski, undergraduate majoring in Computer Science and Engineering, Penn State**
 - Project: “Facilitating Inter-Group Collaboration in Citizen Science”
 - Mentored in data transcription, qualitative data analysis, and technical writing.
 - Co-authored a research paper that was published in ACM CSCW 2022.
- **(2019) Yaxi Liu, undergraduate majoring in Computer Science and Engineering, Penn State**
 - Project: “Designing Hackathons for Community-Based Water Quality Monitoring”
 - Mentored on prototype development for a participatory design study and qualitative data analysis.

Academic Service

- **Track Co-Chair** for DGO (Conference on Digital Government Research) 2026: Digital government for a healthier society
- **Associate Chair** for ACM CSCW 2025
- **Program Committee** for CHI Late-Breaking Work (LBW) 2024
- **Associate Chair** for ACM CSCW Poster 2023
- **Program Committee** member for ACM C&T 2023
- **External paper reviewer:**
 - 2025: CHI, IUI, CSCW, C&T
 - 2024: CSCW, RecSys
 - 2023: CHI Full Paper and LBW, CSCW, DIS, INTERACT
 - 2022: CSCW
 - 2021: CSCW, CHI LBW, INTERACT
 - 2020: CSCW, CHI, NordiCHI
 - 2019: CSCW, DIS, INTERACT
- **Selected to participate in CRA URMD Grad Cohort, 2019**

Skills

- **Research Methods:** Interviews, Observation/Ethnography, Participatory Design Research, Scenario-Based Design, Focus Groups, Surveys, Personas, Contextual Inquiry, Usability Testing, Heuristic Evaluation, Summative and Formative Evaluation, Workshops, Card Sorting, Journey Maps, Story-

boarding, UML, Software Prototyping

- **Tools and Programming Skills:** Adobe Xd, Figma, NVivo, QDA Miner, R, Python, SPSS, Minitab, HTML, CSS
- **Project Management:** Design Thinking, Agile UX, SCRUM, Slack

Awards and Honors

- Special Recognitions for Outstanding Reviews (ACM CHI 2020, ACM CHI 2026)
- 2022: IST Graduate Student Travel Grant, Penn State University
- 2021: Performance Award, IBM Research
- 2021: Graduate Teaching Fellowship (Spring & Fall 2021), College of IST, Penn State University
- 2015: Star of the Week Accolade for extraordinary performance in projects and presentations, HITLAB
